The Company has been organised and is established in Greece, headquartered at 25 Ermou str., Kifissia, Attica.

The company’s shares are listed in the Athens Stock Exchange, in the “Real estate holding & Development” category.

REDS SA is fully consolidated in the financial statements of "ELLINIKI TECHNODOMIKI TEB S.A." which holds 51,15% of its share capital, and is registered in Greece.

2 Summary of significant accounting policies

2.1 Basis of preparation

These interim summary financial statements cover the period from 1 January 2008 until 31 March 2008 and have been prepared according to International Accounting Standard (IAS) 34 “Interim Financial Statements”. Interim financial statements have been prepared according to those IFRS that had either been issued and were in force during preparation of these financial statements (May 2008), or had been issued and applied early.

The accounting principles used in the preparation of the interim summary financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2007.

In order to better and fully understand the interim summary financial statements, one needs to study them along with the annual financial statements for the year ended 31 December 2007, posted on the company’s website (www.reds.gr).

These financial statements have been prepared under the historical cost principle, except that financial assets are carried at fair value, through profit and loss or available-for-sale, according to IFRS 39. Unrealised profit or loss resulting from changes in the fair value of investment property appear as fair value inventories in equity, until such assets are sold or designated as impaired. When sold or impaired, profit or loss shall be carried to the results. Impairment losses appearing in profit and loss are not reversible.

Cost that incur unevenly during the financial year are anticipated or deferred in the interim financial statements only if it would be also appropriate to anticipate or defer such costs at the end of the financial year.

3 Note on future events

Interim income statements, as well as the notes and reports that accompany them may include certain assumptions and calculations referring to future events with regard to operations, growth and financial performance of the Group. Despite the fact that such assumptions and calculations are based on the best possible knowledge of the Company’s and Group’s management, with regard to current conditions and activities, the actual results may eventually differ from those calculations and assumptions taken into consideration in the preparation of the Group’s interim financial statements.
